DEFINITIONS

Gross Profit

The insurance under item 1 of this section is limited to loss of gross profit due to (a) reduction in turnover and (b) Increase in cost of working and the amount payable as indemnity thereunder shall be

- (a) in respect of reduction in turnover: The sum produced by applying the rate of gross profit to the amount by which the turnover during the indemnity period shall in consequence of the accident fall short of the standard turnover;
- (b) in respect of increase in cost of working: The additional expenditure necessarily and reasonable incurred for the sole purpose of avoiding or diminishing the reduction in turnover that but for that expenditure would have taken place during the indemnity period in consequence of the accident, but not exceeding the sum produced by applying the rate of gross profit to the amount of the reduction thereby avoided,

less any sum saved during the indemnity period in respect of such of the charges and expenses of the business payable out of gross profit as may cease or be reduced in consequence of the accident, provided that the amount payable shall be proportionately reduced if the sum insured in respect of item 1 of this section be less than the sum produced by applying the rate of gross profit to the annual turnover.

For the purposes of the insurance under item 1 of this section the expression

“gross profit” used in this section shall mean: the amount by which

- (1) the sum of the value of the turnover and the value of the closing stock shall exceed
- (2) the sum of the value of the opening stock and the amount of the specified working expenses.

“Stock” – The values of the opening and closing stocks shall be arrived at in accordance with the insured’s normal accountancy methods, due provision being made for depreciation.

“Specified working expenses” – those variable expenses of the business that are specified under the heading “Specified working expenses” in the schedule of this section.

“Turnover” – the money (less discounts allowed) paid or payable to the insured for goods sold and delivered and for services rendered in the course of the business at the premises.

“Indemnity period” – the period, not exceeding the indemnity period stated in the column under the heading “Indemnity period limit” of the list under the heading “List of machinery and plant” in the schedule of this section, commencing with the occurrence of the accident during which the results of the business shall be affected in consequence of such accident, provided always that the company shall not be liable for the amount of the loss arising during the time excess, such time excess to commence as from the beginning of the interruption of or interference with the business resulting in a claim under this section.

“Time excess” – the period stated in the column under the heading “Time excess” of the list under the heading “List of machinery and plant” in the schedule of this section.

“Rate of gross profit” – the rate of gross profit earned on the turnover during the financial year immediately before the date of the accident, to which such adjustments shall be made as may be necessary to provide for the trend of the business and of variations in or special circumstances affecting the business either before or after the accident or that would have affected the business had the accident not occurred, so that the figures thus adjusted shall represent as nearly as may be reasonably practicable the results that would but for the accident have been obtained during the relative period after the accident.

“Standard turnover” – the turnover during that period in the twelve months immediately before the date of the accident that corresponds to the indemnity period to which such adjustments shall be made as may be necessary to provide for the trend of the business and for variations in or special circumstances affecting the business either before or after the accident or that would have affected the business had the accident not occurred so that the figures thus adjusted shall represent as nearly as may be reasonably practicable the result that but for the accident would have been obtained during the relative period after the accident.

“Annual turnover” – the turnover that but for the accident the insured would have been able to obtain during the 12 month period immediately before either the date when the business is no longer affected or when the indemnity period ends, whichever occurs first.

Other premises

If during the indemnity period goods shall be sold or services shall be rendered elsewhere than at the premises for the benefit of the business either by the insured or by others on his behalf the money paid or payable in respect of such sales or services shall be brought into account in arriving at the turnover during the indemnity period.

EXTENSIONS AND CLAUSES

1. Overhauls

In determining the amount payable as indemnity under this section due allowance shall be made for the time spent on any overhauls, inspections or modifications carried out during any period of interruption of or interference with the business.

2. Benefits after recommissioning

If during a period of 6 months immediately following the recommissioning of the machinery and plant after an accident the insured derives benefit from deferred sales or from increased production and/or profits as a consequence of an interruption of or interference with the business, such benefits shall be taken into account in determining the amount payable as indemnity under this section.

3. Reinstatement of sum insured

For the period following the occurrence of an accident up to the last day of any (annual) period of insurance the sum insured under this section shall be reinstated by payment of an additional premium on a pro rata basis, such additional premium to be calculated on that part of the aforesaid sum insured that corresponds to the amount paid as indemnity under this section. The sum insured shall, however, remain unaltered.

4. Return of premium

If the insured declares at the latest six months after the expiry of any (annual) period of insurance that the gross profit earned during the accounting period of 12 months most nearly concurrent with the aforesaid (annual) period of insurance, as certified by the insured’s auditors, was less than the sum insured thereon, a pro rata return of premium, not exceeding one third of the premium paid on such sum insured for such (annual) period of insurance, shall be made in respect of the difference. If any accident has occurred giving rise to a claim under this section the aforesaid return shall be made in respect only of so much of the aforesaid difference as is not due to such accident.
